

BATUHAN ÖZBALABAN

I became interested in software with computer programming lesson in university and In order to a new life with software section, I started my studies to become a Front End Developer in July 2022.

I am feeling that my desire and my excitement is increasing day by day throught my studying life. I am so excited to pass to my life new page. After all, happy a job, have a life.

My goals are to prove myself and leave a trace in this sector.Because of this reason, I promise that I will improve myself everyday.
